i-7520AR

RS232 to RS422/485 Converter with 3000V DC isolation at RS-485 side

Features

- Input : RS-232 protocol
- Output : RS-485/RS-422 protocol
- Speed : auto switching baud rate, 300~115200 bps
- "Self Tuner" inside,
- 256 modules max. in one RS-485 network without repeater
- 2048 modules max. in one RS-485 network with repeater
- **Isolation voltage: 3000Vdc at RS-485/422 side**
- Repeater request: 4,000 feet or over 256 modules
- Input power : 10Vdc ~ 30Vdc
- Power consumption: 2.2W max.
